Safe Environment Program

Guide to Creating a Master Report by Location

This report should be created monthly at minimum.

The Master Report is a tool to assist you with monitoring Safe Environment Program compliance for all active employees and volunteers at your location. It is an “at-a-glance” report that helps you review each individual and the status of their SEP requirements without having to go back and forth between individual profiles.

1. On your Administration Tab click “Master Report”. (See the red box in the figure below.)

2. This will open a new page to set the parameters of your report. Saved Reports “Master Report Location 3” is a pre-loaded report that will have all the filters listed below. All you will need to change is your location.

3. Review your filters: *(See example in the figure below.)*
- Choose your location in the Location filter. If you are responsible for more than one location, plan to create a separate report for each location.
 - Choose Educator, Employee (Diocesan/Eparchial), Employee (Parish/Parochial), Faith Formation/Youth Ministry Volunteer, Parent Volunteer and Volunteer. Hold down the “ctrl” key at the lower left of your keyboard to highlight multiple entries. *Locations are not responsible for priests, deacons, seminarians or candidates for ordination. You may add CYO coach if that is applicable to your location.*
 - Profile: choose “User”.
 - Continuing Training: choose “Not Required” and “Required: Per policy”.

People make mistakes choosing roles when creating their profiles. We want to “capture” these mistakes and the way we do that is by highlighting the possible laity roles.

If you have ushers or money counters who are not required to do training or sign policies, then be sure to also add the “Not Required” option.

4. Select the User Fields. The fields checked below are sufficient, but feel free to add more if you wish. However, if you have too many fields it will bog down your report.
- “All locations” pulls in your location even if it is not primary.
 - “All roles” allows you to see what roles are listed in each profile.

IMPORTANT WARNING: Do not be tempted to add or omit any of the filters listed on these instructions. Changed settings risk leaving people off the report who should be included; or including people on the report who do not belong there!

* include this field if you will be sending the report to VIRTUS Support

5. Select the Background Checks Fields. Check all the boxes as indicated below.

- The first box (with blue lettering) will ensure that you only have one column indicating the most recent background check date.
- We pull both employee and volunteer results from our old vendor, CICS, and our new vendor Trak-1.

Background Checks

Combine all selected background check types into one column - You must select the items below to combine

- CICS: Employee
- CICS: Volunteer
- Trak1: Credit Report Only
- Trak1: Education Verification Only
- Trak1: Employee Package
- Trak1: Employee Package + Credit
- Trak1: Employee Package + Education Verification
- Trak1: Employee Package + Education Verification + Credit
- Trak1: Integration Test Package
- Trak1: International Criminal Only
- Trak1: Standard Package 
- Trak1: Volunteer Package

Standard Package was added in February 2024. But some of the old packages still exist. Be sure to have ALL of these filters checked.

6. Select the Required Documents Fields. Check all the boxes as indicated below.

- The first box (with blue lettering) will ensure that you only have one column indicating the most recent date that a user signed off on the SEP personnel policies.
- We currently only have one set of policies in use.

Required Documents

Combine all selected document types into one column - You must select the items below to combine

- Backgroundcheck Questions
- Safe Environment Church Personnel Policies
- Coach Verification (inactive)
- Code of Conduct (inactive)
- Code of Professional Conduct for Church Personnel (inactive)
- Code of Professional Conduct for Church Personnel (inactive)
- Reporting Suspected Abuse or Neglect of Minors and Vulnerable Adults (inactive)
- Safe Environment Program Church Personnel Agreement (inactive)
- Sexual Abuse Sexual Misconduct Sexual Harassment Policy (inactive)

7. Select the the Training Fields. Check all the boxes as indicated below.
 - The first box (with blue lettering) will ensure that you only have one column indicating the most recent training date.
 - We currently only have one Live class (*PGC for Adults*).
8. Select the final Parameters. Check the circle only, as indicated below.
 - We do not require users to read any bulletins, so leave the Bulletins box unchecked.
 - We want the report to only include currently active users, even those waiting to sign up for a class or have a pending status in their profile. *Avoid other options or you will not pull in the appropriate data!!*

Save Report (Optional)

Report Name

Give your report a new title to save your settings. Once you run it to CSV and download the report, the template will be saved for quick access each time you want to run a Master Report.

IMPORTANT WARNING: Do not be tempted to use "Run Report to Screen" for managing compliance. The database is in a constant state of flux and if you work online, get interrupted and have to close the report online, next time you open it data will be different. Create the spreadsheet and work from it over the next couple of weeks.

9. Click "Export Report to CSV".

10. On the next page, click the "Download the report" link.

12. Adjust the columns to show all the information clearly.

- Sensitive information has been blocked out.
- The Position/Title helps determine if someone is subject to all three requirements or not.
- Documents – one time requirement only for those having contact with minors/vulnerable adults. A blank means the policies have never been signed.
- Background check and Training – must be current within the past 3 years from date of the Master Report.
- Highlight in yellow all non-compliant dates.

- After highlighting all non-compliant dates, set to work on those users who are out of compliance.
- Determine if the user is still active or not. Often times they are no longer serving or employed at the location but their Virtus profile never got inactivated. You may want to call them to verify status.
- *Any profile listed as “active” in Virtus will show up in your Master report as an active user regardless of whether they truly are currently active or not!*
- The Position/Title helps determine if someone is subject to all three SEP requirements or not. If their role does not include contact with minors or vulnerable adults, they may not need to meet all requirements. Some parishes have stricter policy regarding the SEP requirements for volunteers.
- For those who are inactive, inactivate their profile in Virtus and cross their name off your Master Report. There is no further follow up needed.
- For those who are active:
 - Contact them by phone or email and let them know they are out of compliance for the following SEP requirement(s): list what they are overdue on.
 - Give them a week to come into compliance.
 - After a week, follow up with them again. If they have come into compliance, great, they are good to go. If they have not come into compliance then send an email (so you have written documentation) and give them a few more days.
 - After a few more days, if they still have not come into compliance then speak with your administrator/pastor. Volunteers and employees who have been given sufficient time/notification to become compliant and have not done so are subject to a suspension of their volunteer ministry or employment until such time that they become compliant.
 - Save your Master Report with any notations as documentation of your follow-up with compliance process.
 - ***Individuals who are subject to SEP requirements should not be working with children or vulnerable adults if they have never had training or a background check; or if they are more than 2 weeks overdue for renewal of their requirements.***
